DAILY NEVADA STATE JOURNAL.

VOL. 21. RENO, WASHOE COUNTY, NEVADA. SATURDAY MORNING, AUGUST 30, 1884. NO. 129.

She Wanted it Back.

ST. LOUIS, August 28.

Miss Louisa N. Taylor, sister of Mrs. Chatena and daughter of the late Geo. B. Taylor, was educated by the order St. Francis de Sales. Two years ago, she announced her determination to become a nun, and entered a convent of visitation. Previous to this, she conveyed her property, estimated worth $100,000, to her sister, Ida, then unmarried, under a written agreement. She expected to take her monastic vows with the order of St. Francis de Sales; but should she not do so, or afterward sever her connection with the order, the property was to be restored to her. Some months ago, the testator left the convent and announced that she had withdrawn from the order, and asked for the restoration of her property. Her sister, suspecting the sincerity of her act, demurred to give back the property, and Miss Taylor brought suit to recover. Mrs. Chauteau then reconveyed the property and a short time after, Miss Taylor transferred it all to Robert McMicholas as trustee for the use of the Convent of Visitation. A few weeks later, Miss Taylor reentered the convent and took the black veil. The plaintiff in a petition just filed in Court, alleges fraud and collusion amongst the officials of the convent, charging them with using an undue influence with Miss Taylor, and entering into a scheme to obtain her property, and seek to set aside the deed by which it was reconveyed, and also the deed by which it was transferred.

CAHOKIA.—One of the quaintest and most singular hamlets of Illinois or of the West was the venerable town of Cahokia, that nestled across the river from St. Louis, even its existence being known to a very few of the inhabitants of the city. It was an early French and Indian trading post and was old before St. Louis was thought of. Its people and its houses were a curious study to the occasional straggler of recent years who fell among its venerable ways, and it was the only place in the United States, perhaps, where an entire community lived without labor, the population being supported by land pensions. In its early day it was an important frontier post, whence expeditions were started and where revels were held, its advantage being disturbed when Laclede started the rival post across the river, now St. Louis. It was in Cahokia that Pontiac, the famous Indian chief, was murdered in a drunken brawl by his English enemies. There is now of the place only a heap of grass-grown ruins, with scarcely a vestige of life.

LIBERAL DIVORCE LAWS.

Mrs. Elizabeth Cady Stanton, in the September number of the North American Review, pays particular attention to Judge Noah Davis's recent article in favor of a uniform system of divorce throughout the United States. She agrees with him in many points of his argument, and emphatically in the demand for more stringent laws against very early marriage. Citing the opinion expressed by him that the age of legal marriage should be raised to fifteen years for girls and eighteen for boys, she asks on what principle should the party on whom all the inevitable hardships of marriage fall, be the younger to enter the relation? She finds that girls do not get their full growth until twenty-five, and are wholly unfit at fifteen for the trials of maternity. She looks upon early and immature marriage as a monstrous wrong to the woman who enters into it.

It is with Judge Davis' fundamental assumption that divorce is the foe to marriage that Mrs. Stanton takes direct issue. "Divorce," she insists, "is not the foe to marriage. One might as well speak of medicine as the foe to health." To Judge Davis' doctrine that the interests of society are paramount, those of individuals secondary and subordinate, she answers that the interests of society and individuals lie in the same direction, and whatever promotes the best interests of individuals promotes the best interests of society.

The commendation of the condition of society in South Carolina by Judge Davis is handled without gloves. This is the one State in the Union which boasts that a divorce has never been granted within its limits for any cause whatever, and the learned Judge said of it, "I am greatly misinformed if in that State the peace, purity and felicity of families do not maintain a far higher standard than in States where divorces are the chronic mischief and misery of domestic life." Against this assumption of superior "peace, purity and felicity," Mrs. Stanton quotes from Court decisions proofs that state, the language of the Judges in two instances being that "the Legislature has found it necessary to regulate, by statute, how large a proportion of his property a married man may give to his concubine." For further evidence on this subject, reference is had to the number of mulattoes or mixed races in South Carolina, as shown by the census of 1880. Mrs. Stanton concludes that where "concubinage is recognized, there is no pressing need for liberal divorce laws."

Mrs. Stanton founds a fine argument and eloquent plea on the assumption that the marriage institution is of divine origin. This being so, she thinks "we can trust Him who ordained it to see that 'those whom He hath joined together will never be put asunder.' Liberal divorce laws are intended to enable those whom God has not joined together to be put asunder. Such laws, so far from being barbarous and degrading, indicate the growing independence, intelligence and the virtue of American womanhood." But she adds, "Before claiming that marriage is a divine institution, let the high priests at the family altar purify themselves, body and soul, and make themselves fit to be the creators of immortal beings. Science has indicated the right to discuss freely whether our ancestors were apes; let it be as free to ask whether our posterity shall be idiots, knaves and lunatics; and if not, by what changes such wretched results may be avoided." Mrs. Stanton does not believe that it is for these that the mothers of the race give the heydey of their lives and ever and anon go down to the very gates of death. If any deduction not precisely stated is to be drawn from her argument, it is that women, being the greatest sufferers from the evils of marriage, should have the right to make the laws for regulating it and to prescribe what shall be the conditions of lawful divorce, or in other words that the woman shall have a divorce whenever she wants it. If the women are generally to hold these views of liberal divorce, and public sentiment should sustain them, the polygamy of Utah cannot be much worse if any worse for society than that state of society which liberal divorce laws must inevitably bring about. It is in the interest of the home and hence of society that the ties of marriage should not be lightly considered, and its responsibilities should be serious enough to cause deliberation and not encourage haste, and in the interest of national morality there is as much necessity for a uniform system of divorce as there is for a national bankrupt act.

OUR RAILWAY SYSTEM.

The man of fifty years need not rack his memory very severely to recall the first note of the locomotive whistle that he ever heard. Our great railway system has grown up from infancy in little more than half a century. The first railroad built in this country was four miles long, built in 1825, and designed to carry granite from the Quincy, Mass., quarries to tide water. It was not till 1831 that the real utility of the invention began to be understood and short lines began to be laid in several States. In studying the history of this country it is well to remember that the men who founded it never saw a railway train, or had any conception of a more rapid journey than such as could be performed by carriages and stage coaches. If Gen. Washington could have had a railroad system for the transportation of his armies and supplies, the Revolution would not have dragged its slow length along for eight weary years, and we should have no such story of suffering to read like that at Valley Forge.

"Poor's Manual" for the year has just been published, and from it we can gain an idea of the revolution that has been wrought by our great railway system. During 1883 the number of tons of freight transported was 400,453,439, at an average rate of 1.24 cents per mile. The total number of passengers carried (not including street and elevated railways) was 312,686,641, which means that the average travel was six trips for every member of the population. The average rate of fare was 2.42 cents per mile. New England furnished 72,377,556 of these passengers, the Middle States 126,735,699, the Southern States, 14,087,866, and the Western States 73,526,833. The Eastern States took eighteen trips for each member of the population, the Middle States ten, the Southern States one and two-tenths, and the Western States four and four-tenths. Massachusetts furnished the highest number of any of the States; Pennsylvania came second, New York third, Illinois fourth, New Jersey fifth and Ohio sixth.

The total railroad mileage is now 120,552 miles. The capital stock is placed at $3,708,060,583; the funded debt is $3,455,040,383, and the floating debt $332,870,345. The net earnings were $336,911,881, being nearly 4¼ per cent. on the total of stock, bonds and debt; the interest paid an average of 4.40 per cent. on bonds and debt, and the dividends averaged 2.61 per cent. on bonds and debt, and the dividends averaged 2.91 per cent. on stock. The roads give direct employment to an immense army of men, and equal or greater numbers derive subsistence from them by indirect methods. The operating expenses were $487,000,000, the greater part of which was for labor, being an average of over $1,500,000 for each day of the year excluding Sundays. The dividends and interest reached $275,000,000, making the total of disbursements $762,000,000, or $2,000,000 for every day of the year.

It has been suggested that the business of railway building has been overdone in this country, a statement that is not without foundation in fact. Not all of the lines have been prosperous, and a good deal of the property invested must wait for the development of the country before adequate return is realized. But the country is gainer, while capital can hardly be said to have suffered, for otherwise it must have lain idle, whereas it is now invested where the ultimate returns are sure, even if provokingly slow at present. The present greatness of our country could not have been attained for centuries except for the great railway system which brings the remotest points near to the great markets and has carried civilization and enterprise into every State and Territory.

A favorite complaint made by the Democracy against the Republican party is that it compels officials and those holding subordinate positions to contribute to campaign funds. The Democrats pretend to be terribly shocked at these assumed infringements of the rules of civil service reform, but their assumption of horror is amusing when we see how they are raising money for campaign purposes. In the city of New York they have assessed all of the employes of the city government 10 per cent. of their salaries in the interest of reform. In California they have assessed all of the State officials $250 each, the Governor $500, Harbor Commissioners $250 each, besides a large sum to the employes; the Sheriff's office in San Francisco, $2,000; the Assessor's, $1,600; Supervisors, $100 each, and other officers and employes in proportion to their incomes, the whole making a campaign sack of about $30,000. This is a fair specimen of the Democratic idea of civil service reform, and shows how it would relieve the poor office holders, clerks and workmen from political assessments if it should come into power.

Some Democratic friend of Cleveland's makes the statement, which is quoted approvingly by the Democratic press, that the Cleveland scandal was not likely to hurt the ticket, for the Democratic party did not lose any votes because of its indorsement of Richard M. Johnson in 1836, when he had a house full of mulatto children born out of wedlock. It should be born in mind, however, that the times have changed very much since then, and public opinion has been revolutionized in many directions. Mr. Richard M. Johnson simply conformed to the prevailing custom of the South in the ante-bellum days, and the prevalence of mulatto pickaninnies about his household was the very best evidence that he was a "true Southern gentleman; by Gawd, Sah." The times may have degenerated since then, and it may be that the American people are becoming too thin skinned and squeamish about little derelictions of this sort, but the fact remains that they demand moral purity in their public servants, and under this test Cleveland cannot fill the bill.

It would not be surprising if the Franco-Chinese war should be participated in by other European nations and that right speedily too. The looting of the foreigners quarter at Foo Chow by the Chinese is causing general ill-natured comment, as is also the action of the French in bombarding the city without landing troops for the protection of foreigners. It is reported that Germany has protested against this action while China complains that English pilots guided the French fleet during the engagement, thus committing a breach of the neutrality laws. All of the great European nations are dispatching their best war ships to Chinese waters to be prepared for any emergencies that may arise, and there is no doubt but there are grounds for apprehending more general and serious trouble.

A cablegram says Dr. Kock holds that the microbe is the principal cause of cholera. But to test this theory it would be necessary to inoculate a man with microbes, "and," says the dispatch, "as an experiment of this character is out of the question, therefore the theory must remain in doubt." Why should it be "out of the question?" Is the world less peopled with heroes than in times past? Men before this have offered their lives to test the value of scientific experiment, and will do so again.—Record-Union.

These are noble words glowing with the fire of true heroism. And now which of your wife's relatives do you propose to sacrifice on the altar of science.

The Democrats have been claiming that Edmunds is sore headed over the nomination of Blaine and will not support him. Of course this statement was the sheerest nonsense, and has been proven false through Edmunds presiding over a Republican meeting at Burlington, Vt., and heartily indorsing the ticket and cause.

Everywhere that Logan goes he meets with enthusiastic receptions. The abuse he is receiving from the Democracy seems only to make him more popular. The people do not forget that his assailants were the ones who tried to destroy the Government, and that Logan fought gallantly to preserve it.

Both Jay Eye See and Phallas failed to lower their own records on Wednesday. The best time Phallas could make was 2:17½, and Jay Eye See 2:12¼. It is claimed that the conditions were unfavorable, a strong head wind prevailing.

"Tell the truth," Cleveland is reported to have said. Well, the truth has been told to his utter discomfiture and the demoralization of his party. In the language of the wild untutored West, he was called on a big bluff.

We regret to be compelled to admit that Blaine shows a tendency towards cannibalism. There is every indication that he will "chaw up" Cleveland in November.

The War in China.

SHANGHAI, August 29.—The French fleet has destroyed the remaining Chinese works at Kinpai Channel. It is believed to have left Min river to-day, but its destination remains uncertain; it seems probable it will come to Shanghai.

The European residents of Shanghai remain unmolested. Many Chinese, however, are alarmed, and are leaving the city and the foreign settlement. The chief magistrate and consuls have issued a placard urging the natives to remain, as the French have no present intention of attacking Shanghai or Woo Sang. The Chinese authorities here received an important dispatch from Pekin, the purport of which is not precisely known; there are reports, however, that China is desirous of coming to an agreement with France. The Viceroy of Canton has ordered all Frenchmen to leave his territory.

OLD ORIGINAL

TENNESSEE

Jubilee & Plantation Singers!

Reserved Seats, 75 cts.

NOTICE:—The placing of this celebrated company before the public has been attended with the most extraordinary success, and why? Simply because we give the only original performance given. We present the negro as he appears in his meetings, cabin homes and on the plantation, and their music is so weird and melodious, and so striking that it enchants an audience, and sometimes we have hard work to get the people to allow the singers to leave the stage at all. Having played in all the leading theaters and opera houses throughout California, to the most refined audiences, they are now en route to the East and Europe.

Reserved seats on sale at Jamison's.

Performance will commence at 8 o'clock.

Col. Jerry Moore, of Ruby Valley, Hon. Tom Wren, Charley Wallace, F. Robins and Charley McKenzy, of Eureka, and Mr. Douthett, Secretary of the Eureka Con., passed through last night en route to the Bay.

LIVELY POLITICS.

A Convention and a Primary To-day.

To-day lively times in politics are promised which will interest the adherents of both parties. The Republicans will hold their Convention to nominate candidates for county offices and a legislative ticket, and the Democrats will hold their primary election to select delegates to their County Convention.

The Republican Convention will meet at the Theater at 10 o'clock A. M. From the talk on the streets we glean the following gossip:

It is understood that the Convention will be presided over by Dr. Dawson, with Seymour Bryant as Secretary and A. J. Banker as Sergeant-at-Arms. The only candidates announced as being in the field last evening were as follows:

Sheriff—Emmitt.

District Attorney — Alexander and Lindsay.

County Clerk—Julien and Campbell.

Recorder and Auditor—Holbrook, of Wadsworth.

Commissioners—For long term, Hymers and Jones. Short term, Frost, of Glendale; Sawyer, of Wadsworth; Lee, of Franktown, and Shoemaker, of Reno.

Senator—Fish and Thompson.

Assemblymen—T. F. Laycock, Pierce Evans, Dave Allen, Nate Roff, Griswold, of Wadsworth, Merrill, of Verdi, and Joy, of Washoe.

Justice of the Peace—Young and Bowman.

Constable—Nash.

Probably other candidates may appear upon the field this morning.

The Democratic primaries hold from 1 to 6 o'clock P. M. at Judge Webster's office on Second street. A ticket consisting of twenty-nine names will be presented from which the voter will scratch ten names leaving nineteen as the choice for delegates. There appears to be no contest in the Democratic ranks as their chances for ultimate success are so small as to scarcely warrant a preliminary struggle.

Charged With Forgery.

William Bryant, who for some time acted in the capacity of brakeman for the Central Pacific on a freight train running out of Wadsworth, is under arrest in Sacramento on a charge of forgery, preferred against him by Tom Barnett in Reno. Constable Nash went to Sacramento last evening with a requisition to bring the prisoner to Reno for trial. It is claimed that when he was discharged on the first of August, the Division Superintendent gave him a time card for the amount due him, after deducting board bills. It is alleged that he erased the figures and raised the amount about $30, and then sold the check to Tom Barnett.

A Sad Ending.

The remains of the man who was killed by the cars Thursday evening were buried in the Potters' field yesterday afternoon. Nothing was found upon the body by which any clue to identity could be ascertained. The only articles found upon the body was an old pipe, a hair brush, a jack-knife and a few old faro checks. An inquest was held last evening, but nothing was developed beyond the facts already stated. His friends, if he has any, will no doubt forever remain in ignorance as to his awful fate.

Teachers' Examination.

As a result of the examination of teachers Tuesday and Wednesday, the examiners have issued first-grade certificates to A. H. Rowe, E. E. Winfrey, Ella Mills, Alice M. Alexander, Nellie Musgrove, and Fred Gould; and those to whom second-grade certificates were issued are Mary P. Henry, W. L. Smith, M. E. Henley and Alice E. Dater.

The Latest.

A large and complete assortment of Scotch and English underwear, in every style, just opened, at the Nevada Cash Store. S. Emerich, Manager.

J. G. Halloway, of Paradise, informs the Silver State that the crops now being harvested in the valley excel in quantity and quality any hitherto raised in that section. Farmers, too, he says, are taking more pains in harvesting and stacking their grain than usual, and the valley is dotted for miles with ricks of grain and hay.

L. P. Whiting, of Milford, who went to Virginia a few days ago to prospect the apple market, left for home yesterday morning. Mr. Blethen, of Reno, will go out at once and commence hauling the fruit to Reno, from whence it will be shipped to Virginia by rail.

A formidable package, with the compliments of Col. Ide, reached the JOURNAL office yesterday, and was a welcome reminder that the Colonel is safely installed as Second Mate to Captain C. F. Moeller in the hotel at Steamboat Springs. Thanks, Colonel.

A Tricky Truckeeite.

O. E. Mason, an Attorney-at-law at Truckee, has been charged on several occasions with embezzling money which he has collected for his clients, but heretofore the affairs have been compromised or hushed up through the influence of friends. On Wednesday he collected $101 from E. C. Cooke, a prominent blacksmith there, and lost a goodly portion of it in dissipation and gambling. Finding that he could not pay, he endeavored to escape, and jumping on a freight train, left town. Telegrams were sent and he was arrested at Boca on Thursday night.

Raising the Wind.

A brace of impecunious gamblers got off the train at Lovelocks a few days ago, and during the day induced an unsuspecting citizen of that town to place $60 in their hands with which to open a game of equine poker. After getting the money they busied themselves during the remainder of the day "fixing things" and when the passenger train came along late in the afternoon they managed to board it and struck out for the west in search of another sucker.

Don't Forget.

A splendid lunch and all the favorite beverages, including the famous Pacific beer, will be found at the Granite Saloon, Commercial Row.

CIVIL WAR IN PERU.

The City of Lima Under Fire—One Hundred and Fifty Killed and Three Hundred Prisoners Taken.

CHARILLOS, Peru, August 28.—In Lima yesterday there was a storm of bullets for over six hours. Caceres entered the city with his rabble yelling and firing. The night before all the Government troops were withdrawn into the Cuartel and Palace, and the entry of Caceres, although not unexpected, was somewhat of a surprise. His men captured the Cuartel and churches Esmercede and San Augustin, from which they kept up the fusilade. They also attacked the Guadalupe Railroad station. About 150 persons were killed in Mercades and Bodegones streets and near the Palace square, where the fire was the hottest. Finally the Government troops made a sortie and drove out the mob. Caceres was accompanied by about 900 horsemen. They appeared to have been traveling all night, and were not in condition to fight with troops well fed and fresh from their beds. Three hundred prisoners were taken. Caceres escaped. German, the proprietor of a cigar store, was killed while looking from his balcony. All the telegraph wires were cut for miles out of the city, and no trains were run. Nothing occurred at Charells. Heavy guns were heard for some hours, but no news as to the locality of the firing was received up to 9 A. M. All is quiet this morning in Lima. The dead men and horses are being removed and pools of blood cleaned up. The fight in San Augustine Church proceeded with closed doors. Caceres is said to have 1,300 disciplined troops who were to have attacked Callao. These may return. Last night there were no guards in the streets; all were in the Curtel and Palace.

British Scientists.

NEW YORK, August 27th.—A Time's Montreal special says: The coming session of the British Association for the advancement of science is creating unusual excitement as the event is an extraordinary one. For the first time in fifty-three years the Association has left the British Isles. About one thousand educated ladies and gentlemen have been drawn hither from across the Atlantic by reason of the holding of this meeting in Canada. More than one-half of these never crossed the Atlantic before. Four hundred have been weeks traveling through Canada towards Winnipeg, or threading the mazes of Western and Northwestern States and Territories of the United States. After the closing of the session of the Association, the visitors from abroad, almost without exception, intend continuing their travels and mainly through the United States. The objective point of many is the Yellowstone region, a few going to the Yosemite in California and to Oregon. Nearly all will make long pilgrimages through the United States.

Freda's Success.

NEW YORK, August 27th.—The Times has the following details of the Saratoga race won by Baldwin's horse yesterday: In the auction pools Lizzie S sold 110, Freda 100, Euclid 60, Nettie 50. After running a few stretches Freda took the lead with the favorite last. On the turn Freda was leading one length and a half from Euclid, and he a length ahead of Nettie. At the stand Freda had increased the lead to two lengths. On the upper turn Freda had the race in hand and finally romped home, the easiest of winners, by two lengths from Euclid. Time 2:42½. The French pools paid $1,540.

PLATFORM

—OF THE—

NATIONAL REPUBLICAN PARTY

Adopted by the National Republican Convention at Chicago.

The Republicans of the United States, in National Convention assembled, renew their allegiance to the principles upon which they have triumphed in six successive Presidential elections and congratulate the American people on the attainment of so many results in legislation and administration, by which the Republican party has, after saving the Union, done so much to render its institutions just, equal and beneficent, the safeguard of liberty and the embodiment of the best thought and highest purposes of our citizens. The Republican party has gained its strength by a quick and faithful response to the demands of the people for freedom and equality of all men for a united nation, assuring the rights of all citizens, for the elevation of labor, for an honest currency, for purity in legislation and for integrity and accountability in all the departments of the Government, and it accepts anew the duty of leading in the work of progress and reform.

We lament the death of President Garfield, whose sound statesmanship, long conspicuous in Congress, gave promise of a strong and successful administration, a promise fully realized during the short period of his office as President of the United States. His distinguished success in war and peace has endeared him to the hearts of the American people. In the administration of President Arthur we recognize a wise, conservative and patriotic policy, under which the country has been blessed with remarkable prosperity. We believe his eminent services are entitled to and will receive the hearty approval of every citizen.

It is the first duty of a good Government to protect the rights and promote the interests of its own people. The largest diversity of industry is most productive of general prosperity and the comfort and independence of the people, the taxpayers, without injuring the laborer or the great productive interests of the country.

We recognize the importance of sheep husbandry in the United States, the serious depression which it is now experiencing, and the danger threatening its future prosperity, and we therefore respect the demands of the representatives of this important agricultural interest for the readjustment of the duty upon foreign wool, in order that such industry shall have full and adequate protection. We therefore demand that the imposition of duties on foreign imports shall be made not for revenue only, but that in raising the requisite revenue for the Government such duties shall be so levied as to afford security to our diversified industries and protection to the rights and wages of the laborer, to the end that active and intelligent labor, as well as capital, may have its just reward, and the laboring man his full share in the national prosperity.

Against the so-called economic system of the Democratic party, which would degrade our labor to the foreign standard, we enter our earnest protest. The Democratic party has failed completely to relieve the people of the burden of unnecessary taxation by a wise reduction of the surplus. The Republican party pledges itself to correct the irregularities of the tariff and reduce the surplus not by the vicious and indiscriminate process of horizontal reduction, but by such methods as will relieve the taxpayer without injuring the laborer or the great productive interests of the country. The Republican party favors a policy which shall keep us from entangling alliances with foreign nations and which gives us the right to expect that foreign nations shall refrain from meddling in American affairs. The policy which seeks peace can trade with all Powers, but especially with those of the Western Hemisphere.

We demand the restoration of our navy to its old-time strength and efficiency, that it may in any sea protect the rights of American citizens and the interests of American commerce, and we call upon Congress to remove the burdens under which American shipping has been depressed, so that it may again be true that we have a commerce.

It is the duty of Congress to enact such laws as shall promptly and effectually suppress the system of polygamy within our Territories, and divorce the political from the ecclesiastical power of the so-called Mormon Church, and that the laws so enacted should be rigidly enforced by the civil authorities, if possible, and by the military, if need be.

The people of the United States, in their organized capacity, constitute a nation and not a mere confederacy of States. The National Government is supreme within the sphere of its national duty, but the States have reserved rights which should be faithfully maintained.

We have always recommended the best money known to the civilized world, and we urge that efforts should be made to unite all the commercial nations in the establishment of an international standard, which shall fix for all the relative value of gold and silver coinage.

The regulations of commerce with foreign nations and between the States is one of the most important prerogatives of the general Government, and the Republican party distinctly announces its purpose to support such legislation as will fully and efficiently carry out the constitutional power of Congress over interstate commerce.

The principle of the public regulation of railroad corporations is a wise and salutary one for the protection of all classes of the people, and we favor legislation that shall prevent unjust discrimination and excessive charges for transportation, and that shall secure to the people and the railways alike the fair and equal protection of the laws.

We favor the establishment of a national bureau of labor, the enforcement of the eight-hour law, and a wise and judicious system of general education by adequate appropriations from the national revenue where the same is needed.

We believe that everywhere the protection accorded to citizens of American birth must be secured to citizens by American adoption, and we favor the settlement of national differences by international arbitration.

The Republican party, having its birth in a hatred of slave labor and a desire that all men may be truly free and equal, is unalterably opposed to placing our workingmen in competition with any form of servile labor, whether at home or abroad. In this spirit we denounce the importation of contract labor, whether from Europe or Asia, as an offense against the spirit of American institutions, and we pledge ourselves to sustain the present law restricting Chinese immigration and to provide such further legislation as is necessary to carry out its purposes.

The reform of the civil service suspiciously begun under Republican administration should be completed by the further extension of the reform system already established by law to all grades of the service to which it is applicable. The spirit and purpose of the reform should be observed in all executive appointments and all laws at variance with the object of existing reform legislation should be repealed, to the end that the dangers to free institutions which lurk in the power of official patronage may be wisely and effectively avoided.

The public lands are a heritage of the people of the United States and should be reserved, as far as possible, for small holdings by actual settlers. We are opposed to the acquisition of large tracts of these lands by corporations or individuals, especially where such holdings are in the hands of non-resident aliens, and we will endeavor to obtain such legislation as will tend to correct this evil. We demand of Congress the speedy forfeiture of all land grants which have lapsed by reason of non-compliance with the acts of incorporation, in all cases where there has been no attempt in good faith to perform the conditions of such grants.

The perpetuity of our institutions rests upon the maintaining of a free ballot, honest count and correct returns. We denounce the fraud and violence practiced by the Democratic party in the Southern States, by which the will of the voter is defeated, as dangerous to the preservation of our free institutions, and we solemnly arraign the Democratic party as being the guilty recipient of the fruits of such fraud and violence. We extend to the Republicans of the South, regardless of their former party affiliations, our cordial sympathy, and pledge to them our most earnest efforts to procure the passage of such legislation as will secure to every citizen of whatever race and color the full and complete recognition, possession and exercise of his civil and political rights.

Appointments by the President to offices in the Territories should be made from bona fide citizens and residents of the Territories wherein they are to serve.

The grateful thanks of the American people are due to the Union soldiers and sailors of the late war, and the Republican party stands pledged to provide suitable pension for all who were disabled and for the widows and orphans of those who died in the war. The Republican party also pledges itself to the repeal of the limitation contained in the Arrears of Pensions Act of 1879, so that all invalid soldiers shall share alike and their pensions begin within the date of disability or discharge and not with the date of the application.

THE PLATFORM

OF THE REPUBLICAN PARTY

OF THE STATE OF NEVADA,

Adopted at the State Convention Held at Virginia City on April 30, 1884.

The Republican party of Nevada in convention assembled reaffirm their devotion to the principles of the great National Republican party, and reiterates its faith in its ability to carry on the General Government in the same spirit of justice, intelligence and progress, respect for human rights and regard for the interests and dignity of labor which have characterized its history for more than a quarter of a century.

Resolved, That the wise, considerate and judicious administration of President Arthur commends itself to the entire confidence and respect of the American people.

Resolved, That the Republican party has at all times been, and still is, the friend and protector of labor, and as such considers the advent of the Chinese race into this country dangerous and inimical to the deserved success and prosperity of American laborers, and still pledges itself to advocate and favor such a line of policy as will protect and foster the interests of labor, and while the recent law of Congress restricting the immigration of the Chinese has approved itself to the people, we demand that it be supplemented by such further legislation as may not only be necessary to attain the object in view, but also prohibit the wholesale importation of persons on contract of labor from any country.

Resolved, That in view of the increased prosperity of the people at large in a great degree consequent upon the wise and settled policy of the Government, we deem it impolitic at present to attempt any change in the revenue and tariff laws now in force.

Resolved, That the reduction in duties on imported wools, made by the Act of Congress in March, 1883, resulted in paralyzing the business of wool growing in the United States and in transferring the same to foreign nations, and we demand the restoration of the wool tariff of 1867 at the earliest possible moment.

Resolved, That gold and silver have co-existed and formed the monetary circulation of the world since the origin of human society, that the agitation against silver threatening to destroy its value and use as money is a blunder and a crime, which can only result in a destruction of values without any compensation, doubling the purchasing power of gold for the exclusive benefit of the interest bearing capital of the country at the expense of bread winners, diminishing their wages and injuring the producing and taxpaying classes. We declare that silver being a product of our labor and capital as well as gold, its demonetization is unnecessary, unwise, unjust, and pernicious and that the present law ordaining the coinage of silver as a full legal tender should be left undisturbed.

Resolved, That we demand of Congress the exercise of all its constitutional power for the speedy suppression of polygamy in the Territory of Utah.

Resolved, That we demand that every citizen shall be protected in his constitutional right to cast a free ballot and have it honestly counted.

Resolved, That we approve of all legislation which tends to promote fidelity and efficiency in the civil service of the country.

Resolved, That we renew our demand for the establishment by the General Government of a postal telegraph service.

Resolved, That the great act by the Republican party of the emancipation of the people of African descent, a people held for a century in the bondage of slavery and ignorance, has imposed a solemn obligation upon the National Government to aid in the cost of educating the freedmen and their children so that they shall become fit to discharge the duties of American citizenship.

Resolved, That monopolies oppressing the people, or unfairly discriminating against them, are wrong in principle and should not be tolerated. To that end we regard with favor the proposed enactment of a law by Congress establishing a National Railroad Commission to investigate the oppressions of railroad corporations, or other legislative action having for its object the relief of the people.

Resolved, That the public domain is the heritage of the American people, and we are in favor of the enactment of such laws as will forbid the alienation of the soil by foreign corporations and foreign landlords.

Resolved, That in the opinion of this Convention the success of the Republican party would be assured by the nomination of James G. Blaine for President; yet, without instructing the delegates this day appointed, but imposing full confidence in their integrity and wisdom, we place on record our firm conviction that they will meet the unanimous sentiment of the Republican party of this State if they support the candidature of Mr. Blaine in the National Republican Convention, and we hereby pledge the Republican party of Nevada to support the nominees of that Convention.

POWDER, ETC.

THE CALIFORNIA

POWDER WORKS,

230 CALIFORNIA STREET,

SAN FRANCISCO,

Manufacture and have constantly on hand

SPORTING.

MINING,

and BLASTING

POWDER

Of superior quality, fresh from the mills. It is being constantly received and transported into the interior, is delivered to the consumer within a few days of the time of its manufacture, and is in every way

Superior to Any Other Powder

In market. We have been awarded successively

Three Gold Medals!

At the MECHANICS' INSTITUTE and the STATE AGRICULTURAL SOCIETY for the superiority of our products over all others. We call attention to our

Hercules Powder,

Which combines all the force of other strong explosives now in use, and the lifting force of the very

BEST BLASTING POWDER

Thus making it vastly superior to any other compound now in use.

Circular containing a full description of this Powder can be obtained on application at the office or of any of our Agents.
